

CanDo® jump ball

- jump ball is ideal for proprioceptive and vestibular stimulation
- ball has heavy duty grip handles designed to give secure control at all times
- supports up to 300 lb (136 kg)

cm in color

40	15.8	yellow	30-1825	12.50
45	17.7	red	30-1826	15.00
50	19.7	green	30-1827	17.50
55	21.6	blue	30-1828	20.00

NOTE: ball diameter

CanDo® ball with feet

- stabilizing "feet" keep ball from rolling when not in use
- weight of person makes the "feet" retract into ball so it can function like an inflatable exercise ball
- non-slip surface is ribbed for extra security
- supports up to 300 lb (136 kg)

cm in color

45	17.7	yellow	30-1891	15.00
55	21.6	orange	30-1892	20.00
65	25.6	green	30-1893	25.00
75	29.5	red	30-1894	30.00

CanDo® wobble ball

- perfect for balance and vestibular stimulation
- can be used with dome or flat-side up
- use with children or adults
- features 1" lip on flat side
- 24" diameter x 8"H

30-1941 wobble ball 60.00

Tumble Forms 2® balance

Turtle™ system

- vestibular stimulation, sensory integration and mobility
- use dome curved-side down as rocker board, or flat-side down as vestibular trainer
- deluxe kit includes rocking Turtle™ dome, padded scooter, T-stool attachment, net swing with rope, ascender and manual
- T-stool/scooter can be ordered separately
- supports up to 250 lb (113.4 kg)

30-3220	deluxe kit	972.50
30-3222	scooter/stool	367.50

barrel roll

- for vestibular training, position child on top of barrel and "roll"
- use barrel as a tunnel for play therapy or to practice crawling
- soft outer shell for comfort with solid core support to prevent collapse
- 22" outside/11" inside diameter, blue
- supports up to 250 lb (113.4 kg)

30-3040 barrel roll 487.50

vestibular board

- board has foam-padded non-slip top with recessed sides to help prevent pinched fingers
- use board for vestibular activities
- 18" x 24" top, 6" height
- supports up to 150 lb (68.0 kg)

30-3152 board 300.00

balance beam

- 6' long reversible beam with foam-padded non-slip surface
- position to have 3" or 6" width as top
- top is 7" from floor
- supports up to 200 lb (90.7 kg)

32-2111 balance beam 510.00
